Premium Calculation Double Check

In 2026, attempted to confirm the silver spot price of 2025/05/01. I could not find €29.09/oz. Here is what I found.

Silver Spot Price 2025/05/01	Source
€27.78	https://www.apmex.com/silver-price
€28.34	https://www.bullionbypost.co.uk/silver-price/20-year-silver-price-history-euros-ounce/
€28.71	https://goldbroker.com/charts/silver-price/eur#historical-chart
€28.72	https://silverprice.org/silver-price-europe.html

The median value is $(€28.34 + €28.71)/2 = €28.52$. Using this value, I re-calculate premium:

Premium (silver only) = $((€32.78 - €28.52)/€28.52) \times 100\% = 14.936\%$
